

The Commercial Licence allows you to work as a Professional Pilot which means that you may now fly for remuneration. With this qualification you are now able to apply for a position in one of the many different commercial operations the aviation industry has to offer.

*For a VFR Commercial Pilots Licence you will need 200 hours Total Flight Time. 100 hours of which must be PIC (Pilot in Command) and 20 hours thereof must be cross country, a further 20 hours of instrument flight time is required. At least 5 hours of your training will need to be done on a complex aircraft. We recommend the student complete all CAA CPL exams & has ± 160 hours total flight time before beginning the final training.*

For VFR Comm Licence you need 20 hours of instrument flight time.

	Units	Rate	Total
Simulator Instrument Training (FNPT II)	5	R 950.00	R 4 750.00
